

Environmental Policy

Nellis AFB, Creech AFB and the Nevada Test and Training Range (NTTR)

Continual Improvements Commitments

Comply with all laws, rules and regulations

We will comply with all Federal, State and local environmental laws and regulations applicable to the conduct of our mission. We will strive for continual improvement in our environmental performance and stewardship. We will integrate sound environmental practices into our daily decisions and activities.

Maintain partnership with local community

We are committed to being a good neighbor to the surrounding communities. We will ensure exceptional stewardship of natural and cultural resources and protecting the quality of air, water and land resources.

Meet aggressive goals for improvement

We are committed to setting strong but realistic environmental goals in the form of targets and objectives, to measuring progress through internal and external inspections and audits, to take corrective action when necessary, and to communicate to each employee so they understand their role and responsibilities towards the organization's accomplishment of each of their goals.

Embrace pollution prevention – reduce, reuse, recycle

We will investigate new and innovative technologies and practices applicable to base operations to identify and implement where possible pollution prevention initiatives. Reduce the generation of wastes. Reuse materials and equipment by advertising to other bases before disposing the wastes in an environmentally responsible manner. Recycle materials otherwise destined to become wastes.

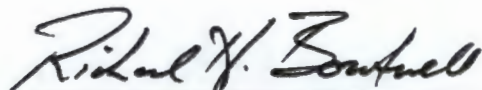

Ensure continuous education

We will provide continuous communication with the base personnel, contractors, and residents to keep everyone informed on their environmental stewardship role. Base personnel will be educated and trained on their roles and responsibilities for environmental compliance and pollution prevention.

Meet expectations

We will achieve or surpass the applicable requirements of laws, regulations, industry codes of practice and agreed upon commitments with our stakeholders. We will provide the best services to internal and external customers.

**Compliance commitments contained within this policy shall be
the responsibility of all military, civilians, and contractors**
